

Empowering Chemistry to build a “Beautiful China”

Kenny Pan
Asia Pacific Vice President
Huntsman Polyurethanes

Sept 18, 2019

Aiming for Sustainable 2025 People, Profit, Planet

**“ Love is in the needs of others to
see their own responsibility ”**

Mother Teresa

Increasing plastic waste threatens our environment

HUNTSMAN

Enriching lives through innovation

Globally, **one million** plastic bottles are used every minute
This number is set to grow by **20%** in future annually

Less than **50%** of waste plastic bottles are recycled

By 2050 **plastic waste** in the ocean will **outnumber fish**

Seafood eaters ingest up to **11,000** pieces of micro-debris every year

Turning waste into treasure cyclical economy creates value

HUNTSMAN

Enriching lives through innovation

Energy Conservation

VALUE

Economic Raw Material

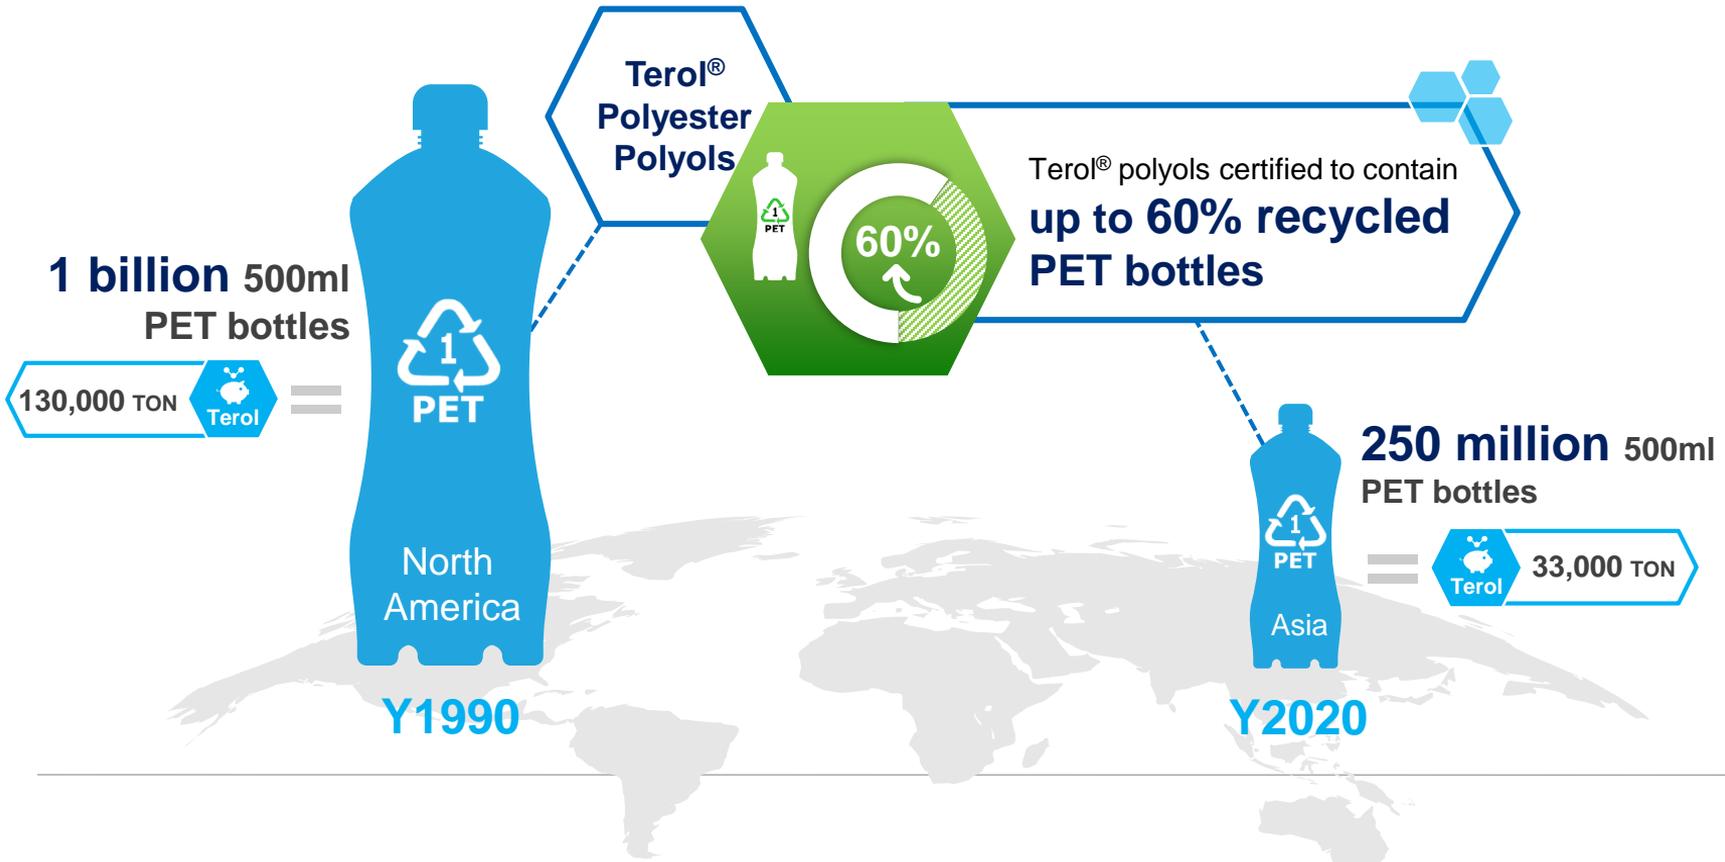

Innovation

Plastic reborn: Huntsman's PU technologies innovate plastic recycling

HUNTSMAN

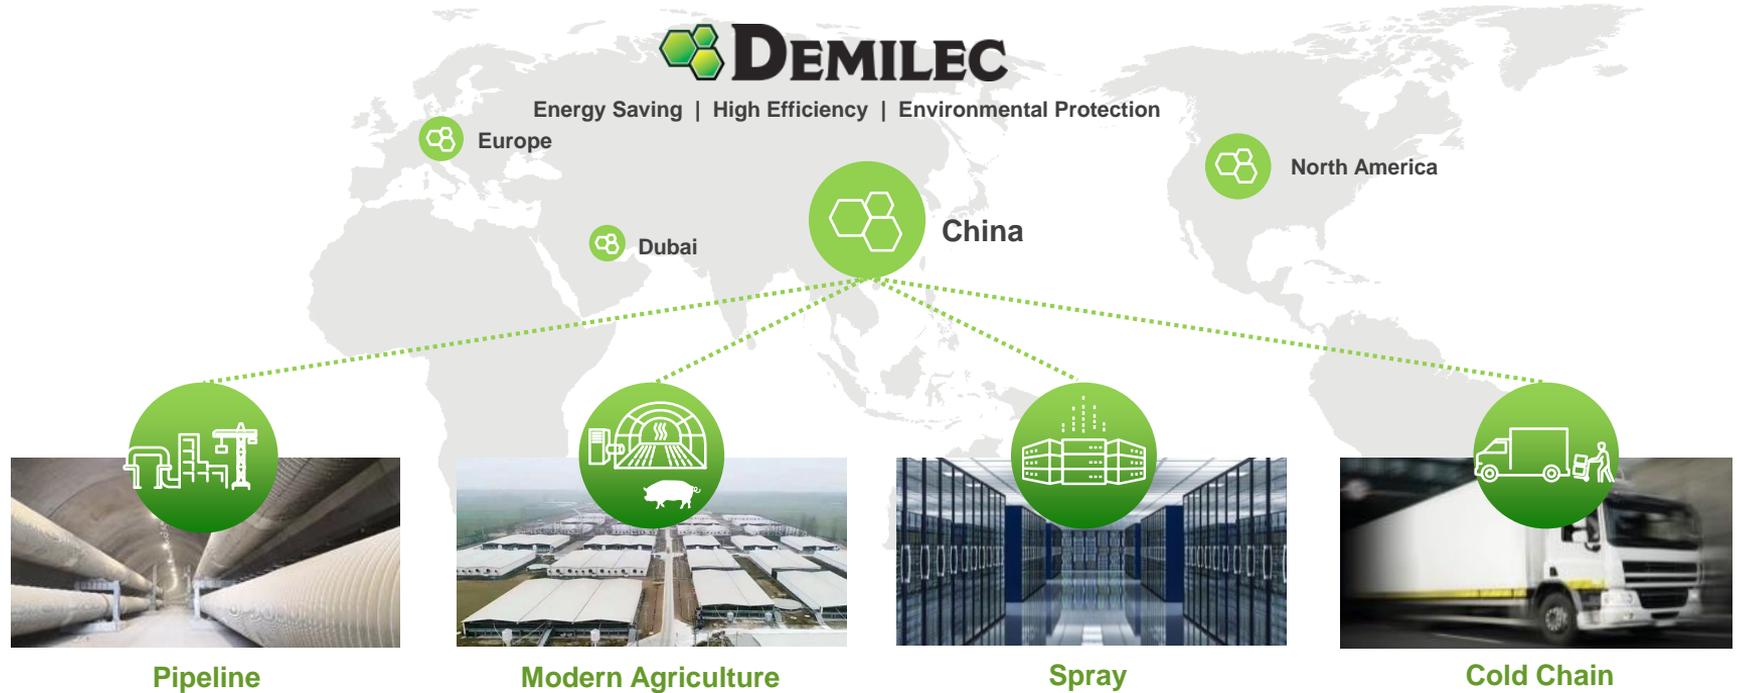

Enriching lives through innovation

Globalize spray and panel insulation solutions to enhance energy efficiency

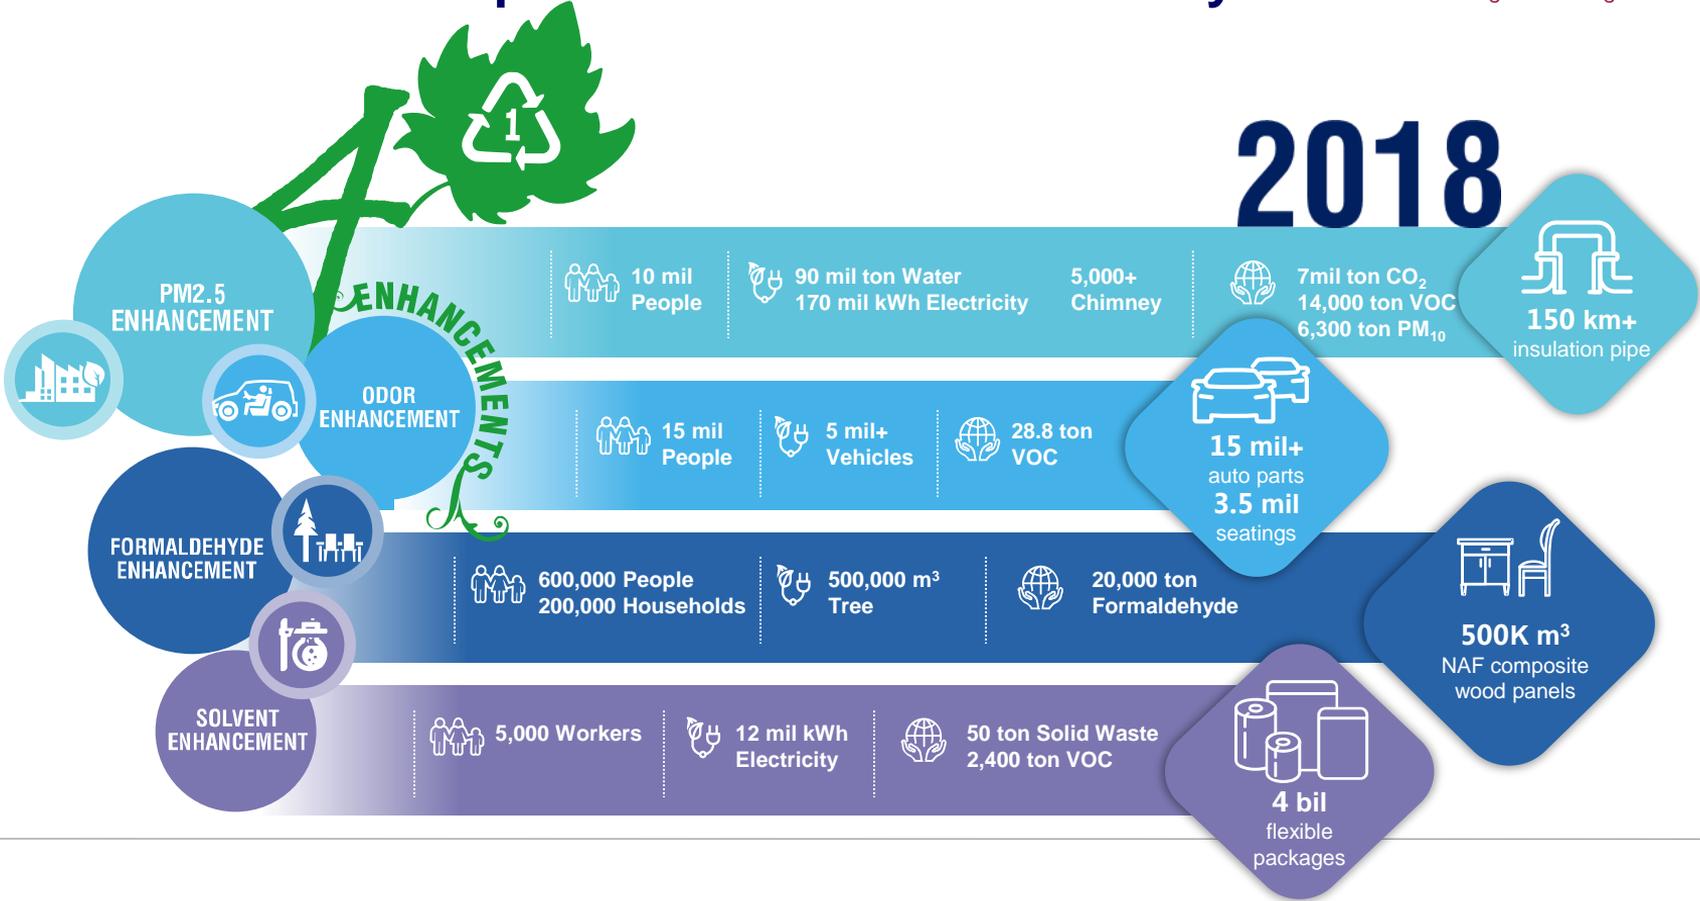

HUNTSMAN

Enriching lives through innovation

Four Enhancements prove value for sustainability

2018

Rooted in China, committed to the future

HUNTSMAN

Enriching lives through innovation

Empowering chemistry to build a beautiful China

**Focus on China's sustainability challenges
Huntsman is committed to
construct a "Beautiful China"**

Thank you !
