

"Open Cooperation Wins the Future, Industrial Leshan Welcomes You"

September 11, 2018

Foreword

Respected leaders and guests, Good afternoon, everyone!

In this beautiful season, it is a true privilege to gather with everyone here in Chengdu for this important industrial conference. Here, I the Leshan Municipal People's Government in expressing the most sincere congratulation to the commencement of the "Mayors' Forum" of the 2018 CPCIC! And the most sincere greeting to all attending leaders, guests and friends from all aspects of society. Next, I will present a brief introduction about Leshan, including the city's basic conditions, industrial development foundation, and upcoming considerations.

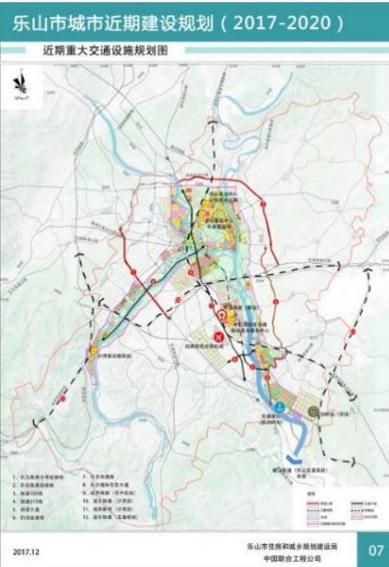

I. Leshan has Excellent Environmental Conditions and is a City for Human Habitat

Land of Abundance in Sichuan, happy mountains and waters in Leshan. Leshan is located in southwestern Sichuan, administers 11 counties (county-level cities, districts), and has a territory of 12,700 sq km and a population of over 3.5 million. In the first half of the year, Leshan GRP rose by 8.4%, maintaining both stability and growth.

i) Highly Accessible Transportation System

Southern Silk road

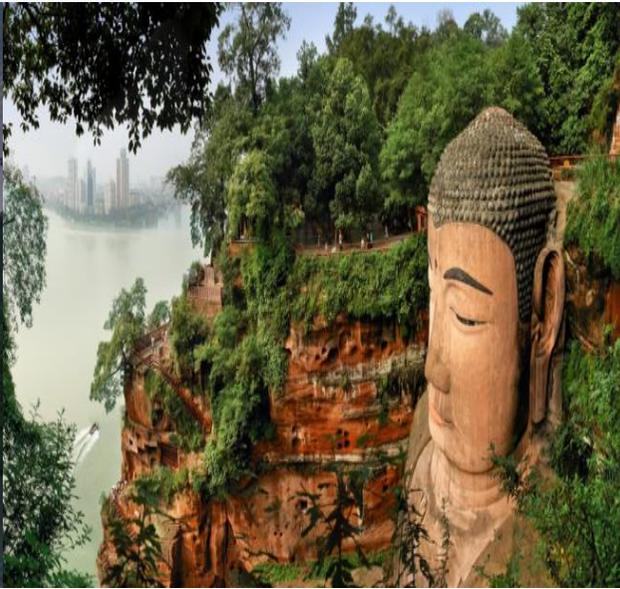

Transportation Planning

We are currently dedicating emphatic efforts into our transportation strategy and speeding up the establishment of a multidimensional transportation system. Following the accelerated progress of a large number of major programs such as the Cheng-Gui High-speed Railway, Leshan Airport and navigation and electricity project at the Min River Port, in the next few years Leshan will fully assimilate into the national high-speed railway network, national aviation network and the golden watercourse that is the Yangtze River.

Juncture of the Yangtze River Economic Belt

ii) Top-notch Tourism Resources

The best landscapes between heaven and earth are in Shu, and the best of Shu is in Jiazhou" Leshan is a major city in terms of cultural tourism resources, featuring famous mountains, famous Buddha, famous personalities and famous cities. It is home to [three world-class heritage sites including Mount Emei, the Leshan Giant Buddha and Dongfengyan](#), and the city hosts foreign and domestic visitors totaling more than 50 million person/times.

iii) Mountains and Waters that Reflect and Supplement Each Other

01

National Garden and Forest City, National Greening Model City and National Water Ecology Civilization Construction Trial City

02

implement ecological programs such as "green and beautiful Jiazhou"

03

The city has a forest coverage rate of 57.2%

II. Leshan has Sound Industrial Support, and is a City for Robust Industry

Industrial Foundation

Leshan was one of the key cities during the "three construction" period (c. 1964-1980) and is one of Sichuan's "old school" industrial cities. Thus, Leshan has been the home to many industries and can provide strong and diverse industrial support.

Industrial Layout

At present, Leshan has formed an industrial structure comprised of five major emerging industries including **electronic information, clean energy, new material, modern equipment manufacturing and biomedicine**, which are coupled with a trio of traditional and competitive industries, namely **metallurgy and construction material, salt and phosphorus chemicals, and agricultural produce processing**.

i) Relatively Solid Industrial Foundation

Five Major Emerging Industries

Electronic
Information

Clean Energy

New Material

Modern Equipment

Biomedicine

Three Competitive Traditional Industries:

Project One

Metallurgy and
Construction
Materials

Project Two

Salt and
Phosphorus
Chemicals

Project Three

Agricultural
Produce
Processing

Construction of western China's largest discrete semiconductor component, polycrystalline silicon, carbon fiber, rare earth and non-military nuclear fuel bases have basically been completed. The city plays host to a number of "national-level" platforms such as a National Hi-tech Industrial Development Zone. Leshan has the third most provincial-level engineering and technology research centers in Sichuan Province, as well as the fourth most provincial-or-above level innovation enterprises and the fifth most national high and new technology companies.

Economic Returns Generated by Industrial Development in 2017

**RMB 63.24
billion**

10.1%

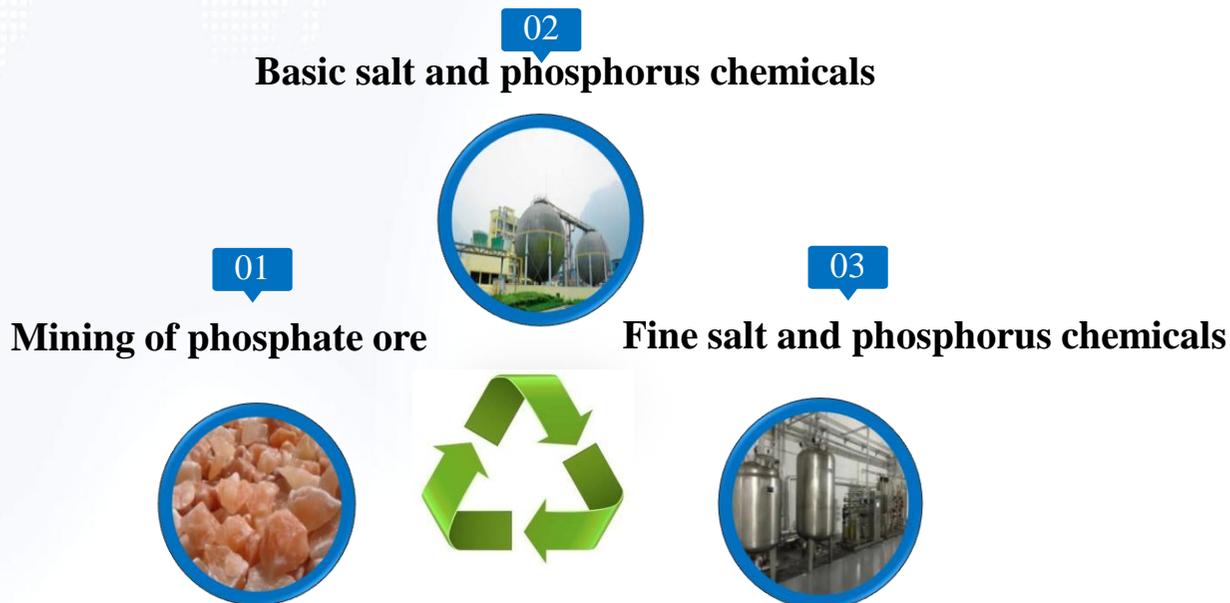

**Ranked 7th
in the
Province**

In 2017, the whole city realized **RMB 63.24 billion** in industrial added value, ranking **7th** in the province. In the first half of this year, added value contributed by the city's above-designated-scale industrial enterprises climbed by **10.1%**, which is **2.1 percentage points** higher than average growth in the province.

ii) Clear Industrial Advantages

Circular Economy Industrial Chain

Leshan's Leading Salt and Phosphorus Chemicals Industry Enterprise

China's number one glyphosate production capacity, and China's number one n-(phosphonomethyl) glycine production capacity.

Fuhua Group, Hebang Group, Yongxiang Co., Ltd., among others

Western China's Largest Fine Salt and Phosphorus Chemicals Industrial Base

Sichuan Circular Economy Model Industrial Park

2017 World's Top 20 Agro-chemical Companies

China's Top 500 Private Enterprises

Longest Circular Economic Chain, Highest Rate of Resource Utilization

As the leading salt and phosphorus chemicals industry enterprise in Leshan, Fuhua Group has long been devoted to forging a circular economy that encompasses the entire industrial chain. Its glyphosate mother liquor treatment technology addressed a world-class technical bottleneck and permits the utilization of glyphosate mother liquor as a genuine resource. The company has been granted 27 authorized patents, and Fuhua products have been sold in 127 nations and regions across the globe.

iii) Solid Supports for Industrial Parks

Headquarters of the Leshan National Hi-tech Industrial Development Zone

1 Progress in the Construction of the "One HQ, Three Bases"

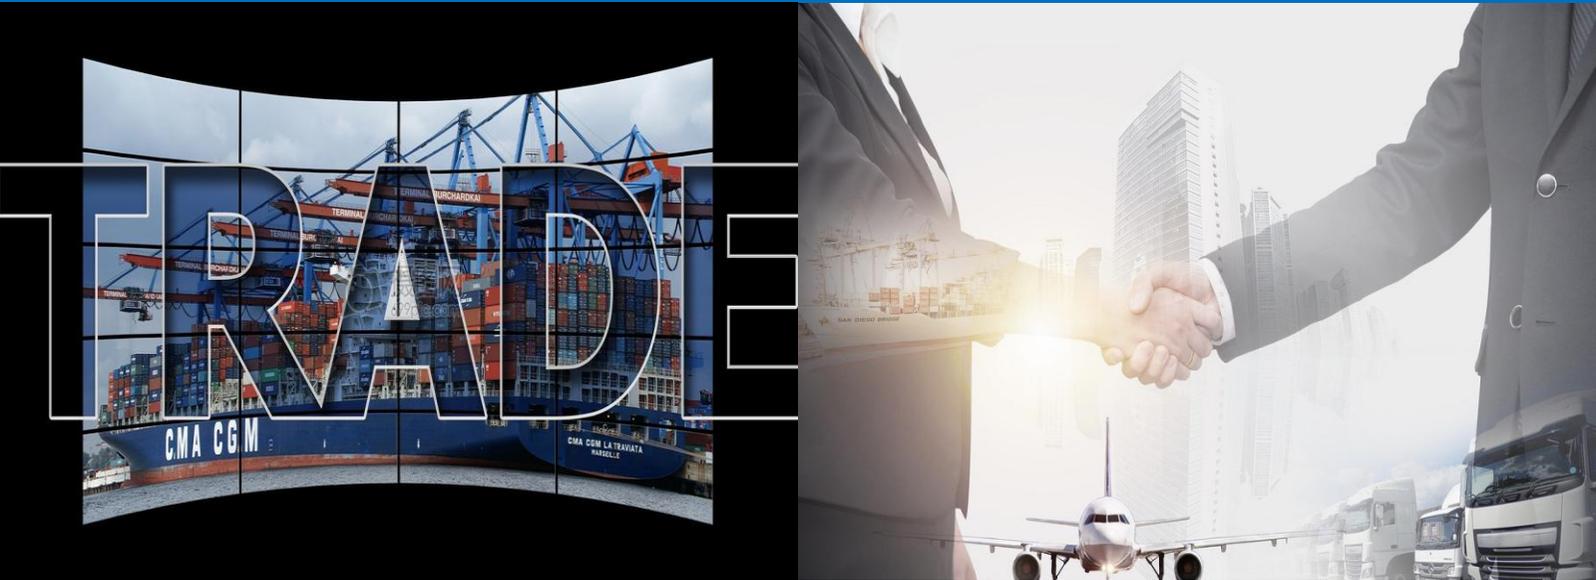

2 Expedite the growth of "novel chemical industrial parks"

3 Plans for salt and phosphorus chemicals industrial base

4 Cultivate and forge "ten billion-yuan enterprises" like Fuhua and Hebang

Target: To record more than RMB 35 billion in total output in the citywide salt and phosphorus chemicals industry by 2022, which would fortify the establishment of growth poles for both new and old productive momentums across the province.

III. Leshan has Reliable Services and is a City for Prospering Commerce

Leshan is among the first group of foreign opening-up cities, and has formed amicable rapport and trade and economic relations with more than 110 nations and regions. Leveraging on the accumulations in the 40 years after the commencement of the Chinese economic reform, the "commerce-focused, commerce-friendly, commerce-caring" mentality has been deeply rooted in this fertile land for investment and business.

i. Assurance of Key Factors

1 Leshan has abundant and assured electricity supply

2 More than 110 financial institutions of all kinds

3 Active but stable steps to advance trials in "exclusive power supply" and "direct power supply,"

4 Construction of platforms such as bonded logistics zone (Type B),

ii. Opened Investment Promotion and Business Recruitment

- ◆ "One HQ, Three Bases" policy
- ◆ Unveiled policies such as 30 Policies for Investment Promotion and Business Recruitment in the City of Leshan
- ◆ Enacted about a dozen specialized support policies to assist photovoltaic electricity and new energy, and introduced a myriad of famous enterprises like the Tongwei Group, PowerLeader of Shenzhen and Huantai Group of Suzhou.
- ◆ Active stance in assimilating into the "One Belt One Road," Yangtze River Economic Belt and other national strategies

iii. Service Environment

Four Specialized
Actions

Internet Plus Governmental
Affairs Services

"Six All-inclusive" Full
Responsibility Model

One-stop Service

Maintain firm grasp on progress with regards to the "one network, one door, one time" governmental affairs service reform, continue to enhance service efficiency and service quality, and dedicate ourselves to building Sichuan's new high ground in business climate.

[Thank you]
